

THE MEASURE OF LEADERSHIP IN PRODUCT AND SERVICE
Sales and Service of Electrical & Electronic Test Instruments

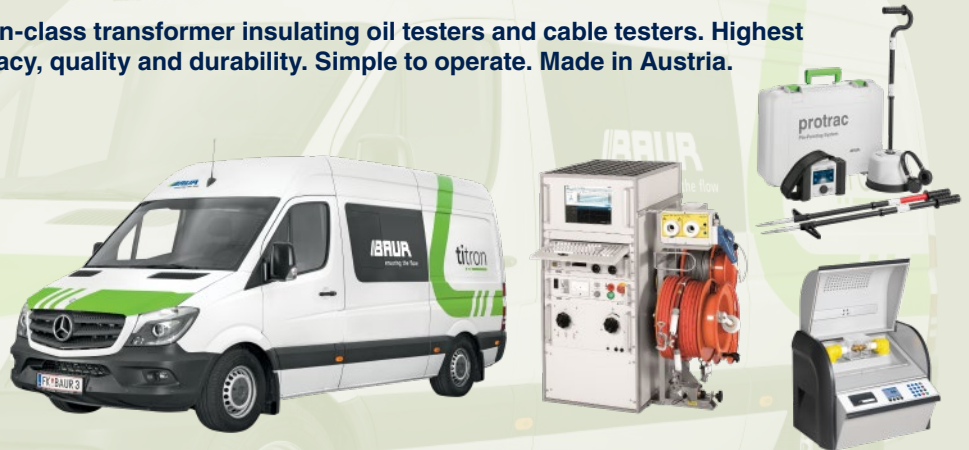

HIOKI Superior quality test equipment. Wide range of products. Best performance in the industry. Highest accuracy. Reliable and durable. Simple to operate. Made in Japan.

- Memory Recorders and Data Loggers
- Power Quality Analyzers and Power Meters
- Impedance Analyzers
- Current Probes and Clamp-On Sensors
- Digital Multi-Meters
- Battery Testers
- Megohmmeter Testers
- Earth Testers
- Many Other Products

Best-in-class transformer insulating oil testers and cable testers. Highest accuracy, quality and durability. Simple to operate. Made in Austria.

- Transformer Insulating Oil Testing
- Cable Fault Location – Surge Generators, TDR, Glaser/Murray Bridge Testers, Pinpointing Devices
- Cable Testing & Diagnostics – VLF (with truesinus® proprietary technology), Partial Discharge
- Cable Test Vans – Complete solutions for cable testing and asset management
- Advanced software for cable asset management – BAUR software, Statex® cable database statistical analysis

Cutting edge designs of substation test equipment. Innovative technology for increased performance and accuracy and for size/weight reduction. Enhanced software support. Manufacturer-provided technical support and training. Made in Sweden

- Transformer Turns Ratio Testers
- Tap Changer Analyzers & Winding Ohmmeters
- Circuit Breaker Test Equipment
- Micro Ohmmeters
- Battery Test Equipment – Load Testers, Resistance Testers, Battery Chargers
- Motor Test Equipment

Over 40 Years, Since 1978

THE MEASURE OF LEADERSHIP IN PRODUCT AND SERVICE
Sales and Service of Electrical & Electronic Test Instruments

High quality laboratory test equipment. Unbeatable value. Made in China.

- Digital Oscilloscopes
- Spectrum & Vector Network Analyzers
- Spectrum Analyzers & Tracking Generators
- Waveform Generators
- Programmable DC Power Supplies
- Bench Type Digital Multimeters
- RF Generators

Superior data loggers for a wide range of industries. Cost effective solutions. Made in Japan.

- Data Loggers
- Data Acquisition

Industry leader in ground resistance testers, current probes, power quality analyzers and more.

- Ground Resistance Testers
- Clamp-On Meters
- Megohmmeters
- Micro-Ohmmeters
- Power Quality Analyzers, Meters and Energy Loggers
- Cable Testers
- Many Other Products
